

New Work Service Pool At Grayling High School

Students seeking employment and employees looking for workers will now have a better way to get together, due to a new work service pool being established by the GHS counseling department. The office acts as a go-between for people wishing services performed by students and the students who wish to find an odd job.

Students should leave their name, age, type of services they will perform, and when they are available at the counseling office. Persons or employers wishing to hire should call 348-7641, extension 28, between the hours of 8:30 a.m. and 3:25 p.m., Monday through Friday. Financial arrangements will be made between the employer and student before work is accomplished.

Suggested types of jobs are raking, window-washing, snow shoveling, floor scrubbing, and many others.
